

4. Create a simple cloud software application for Car Booking Reservation System using any Cloud Service Provider to demonstrate SaaS.

The screenshot displays the 'Book a Cab' form in Zoho Creator. The form is titled 'Book a Cab' and is part of a 'Cab Booking' application. The form fields include: Name (First Name and Last Name), Employee ID, Email Id, Mobile Number (with a dropdown for country code and a default value of +91 81234 56789), Gender (Male and Female radio buttons), Booking Date, Travel Date, Pickup Time (a dropdown menu), and Pickup Address. The form is displayed in a web browser window with the URL 'creator.zoho.in/appbuilder/poojanikumar1728.sse\_saveetha/cab-booking/form/Book\_a\_Cab/edit'. The Zoho Creator interface includes a sidebar with 'Cab Booking' and 'Book a Cab' options, and a top navigation bar with 'Design', 'Workflow', and 'Settings' tabs. A 'Form Customization - Web' panel is visible on the right side of the form.

The screenshot displays the 'Book a Cab' form in Zoho Creator, showing the destination address section. The form is titled 'Book a Cab' and is part of a 'Cab Booking' application. The form fields include: Address Line 2, City / District, State Province, Postal Code, Country, and a dropdown menu for Country. The form is displayed in a web browser window with the URL 'creator.zoho.in/appbuilder/poojanikumar1728.sse\_saveetha/cab-booking/form/Book\_a\_Cab/edit'. The Zoho Creator interface includes a sidebar with 'Cab Booking' and 'Book a Cab' options, and a top navigation bar with 'Design', 'Workflow', and 'Settings' tabs. A 'Form Customization - Web' panel is visible on the right side of the form.
